## Test Schedule:

Friday:

- Studies Weekly Science Week 20
- Sprint II
- Domain 6: Cycles of Nature

## Reminders:

- Read the BACK of the newsletter for study tips
- Students MUST write in complete sentences for homework. Many students are writing one word answers. They need to Turn The Question Around like we practice daily in class. Please have them use neat handwriting, capitals and ending marks.
- We have three weeks until Christmas Holidays. Let's work hard, study and complete all homework. 😊

**\*\*\*\*\* Read, read, read... 20 minutes each night.**

-Mrs. Johnston

# Study Tips

**Spelling:** We do not have a spelling test this week. You do have a copy of next week's words in the binder if you would like to start practicing.

**\*\*Handwriting is also taken into consideration when grading spelling tests.**

**Students should not be using capital letters to write the words unless it is a proper noun. The letters: p, q, g, j, and y should all dip below the line.**

**Neatness counts! 😊**

**Listening & Learning:** We are finishing Domain 6: Cycles of Nature. The final test on all lessons and vocabulary will be on Friday.

**Math:** We are continuing our work on Module 4. We will only have a sprint test this week, but it is important to keep up with homework and studying. Review Exit Tickets and homework. Our Mid-Module 4 Test will be on December 7<sup>th</sup>.

**Social Living:** We are studying Science Week 20: Tundra, Grassland, and Desert Habitats. This week is more information than in our previous weeks. Please make sure you are reviewing this study guide each night. Make sure your child is reading the words on their own. They have to read the test independently. Students can use the study guide in the binder to study. Newspapers were sent home that students can use to study as well.

**Be sure to read all of the newsletter. It may look the same each week, but I change it to add what we are working on weekly. 😊**
